Questions You May Have About Your Annual Summary Statement:

1) Are all transactions I made included in this Annual Summary Statement?

Transactions you made that were posted between January 1, 2023 and December 31, 2023 will reflect on this annual summary statement. Transactions after December 31 but before the mail date of this statement will be listed on your next annual summary statement.

2) How are the transactions assigned to categories?

Merchants self-select the category in which they would like their transaction items to be listed. Please note that some merchants may be owned by other companies, therefore transactions may not appear in the category in which you define. For example, a transaction made at a restaurant that is inside of a hotel may appear as a "Hotel/Lodging" item rather than a "Restaurant" item.

3) How will my international charges appear on this statement?

Any transactions made outside of the United States will appear in U.S. Dollars at the exchange rate on the day in which the transaction was posted to your account.

4) What is the benefit of my Annual Summary Statement?

This itemized listing of all your transactions for the previous year can greatly reduce time spent for tax preparation. In addition, you may recognize tax deductible expenses you may have overlooked. Your statement is also an excellent tool for financial management and budgeting.
